Subject: Termination of Suspension of Mining Operations, Bright 1 & 2 (M/021/030) and Hiltop (E/001/102), Iron and Beaver Counties Utah

Dear Mr. Bradshaw:

On September 8, 2003, the Division notified you that your mining operations were placed in suspension for failure to pay the required permit fees for year 2003. We have since received your permit fee for two of your permits (Bright and Hiltop). The suspension status for these two projects have been removed. You may continue mining and exploration as before at these locations.

We have not received any word from you regarding the B & W #1 Claims (S/027/049) or the Bradshaw Pumice/Perlite Mountain (S/001/033), which were also placed in suspension status for non payment of fees. You have been informed that permit fees are required annually until the site has been completely reclaimed and you have received written notification from this office that the permit is officially closed. **Please submit the required permits fees for these two projects (or check the box to close the file if the sites are completely reclaimed and ready for release) to avoid any further enforcement action.**

In order to avoid this from happening in the future, payment of the fee by the due date (last Friday in July) would be appreciated. Thank you for keeping your mine permits in good standing.

Sincerely,

D. Wayne Hedberg, Permit Supervisor
Minerals Regulatory Program
Utah Division of Oil, Gas and Mining
